An Oasis of Well-being

Location

Crikvenica is situated in one of the most picturesque corners of Kvarner and is surrounded by clear blue sea, white coastal rocks and fragrant green hills. Crikvenica enjoys a mild and healthy climate, and is home to a beautiful natural scenery and a rich cultural and historical heritage.

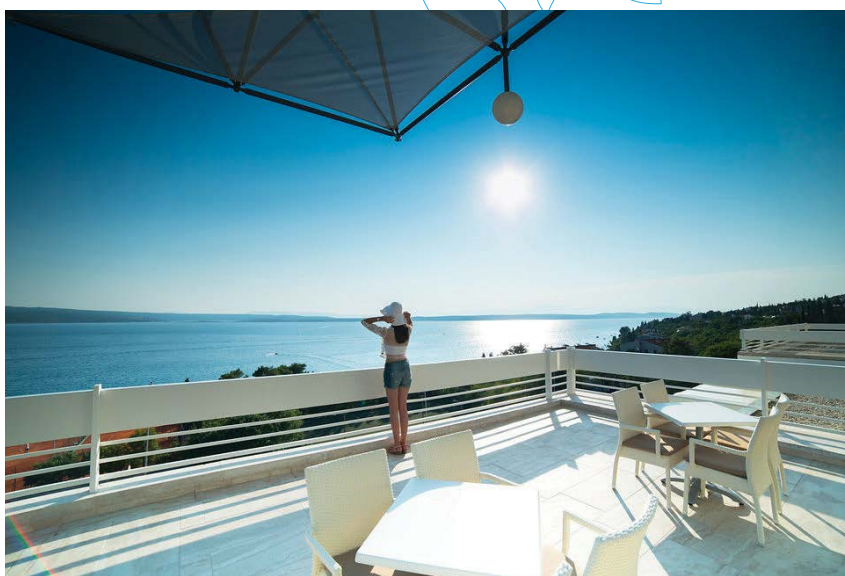

This makes it ideal for family fun, an active holiday or just relaxing on the beach. Good road and rail connections with Central Europe have all contributed to the continuing development of tourism and the tradition of welcoming visitors here which has already been well established for over than 130 years.

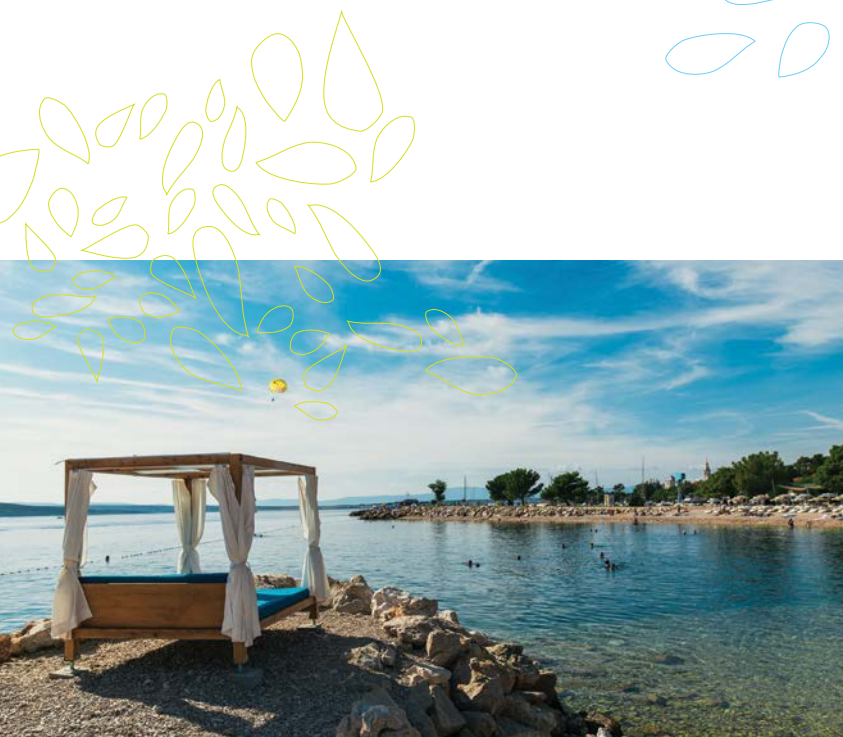

Accommodation

Crikvenica is today a leading holiday resort in Croatia with numerous facilities offering a wide variety of tourist services. The town extends its hospitality as a tourist destination with a long tradition, regardless of whether the accommodation is in apartments, rooms in private houses, holiday villages or in one of its hotels.

Beaches

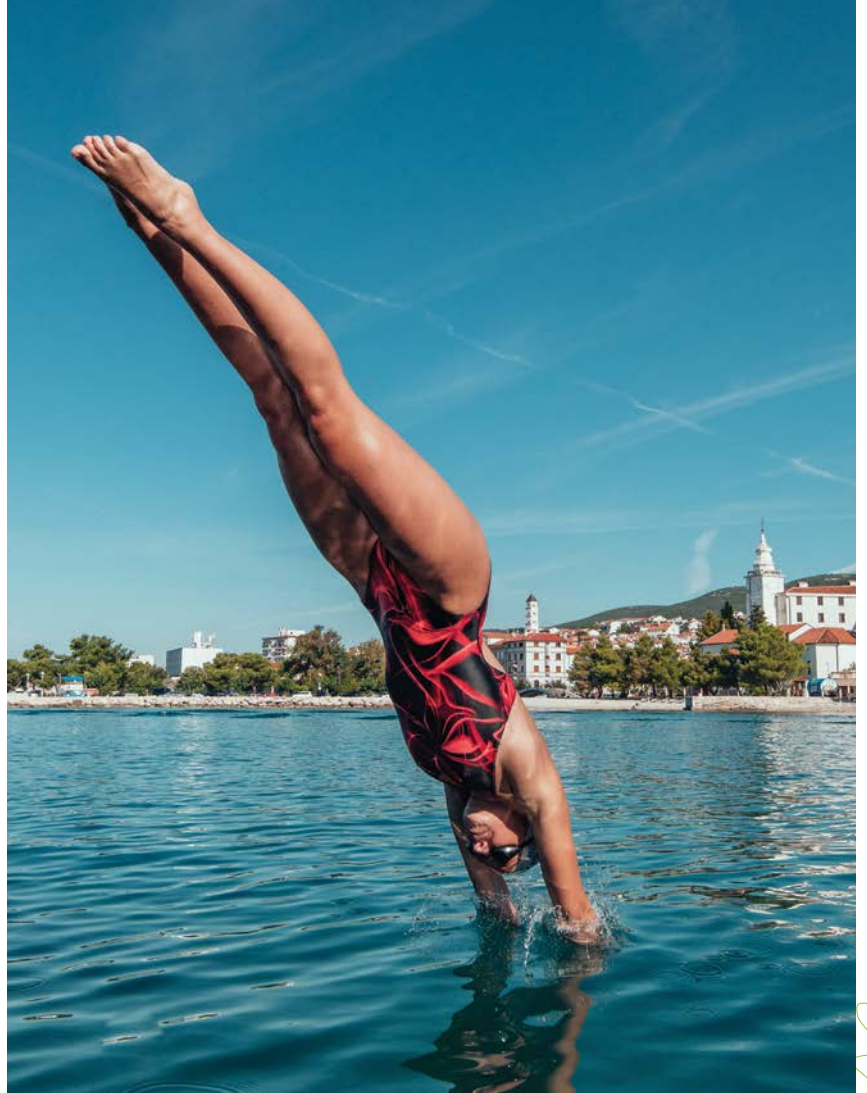

The beaches of Crikvenica have always attracted visitors because of their beauty, and have put smiles on faces and given people unforgettable memories. Regardless whether they are sandy or pebbly, big or small, developed or natural, beautiful beaches are a trademark of this Riviera and provide the ideal background for wonderful holiday photos.

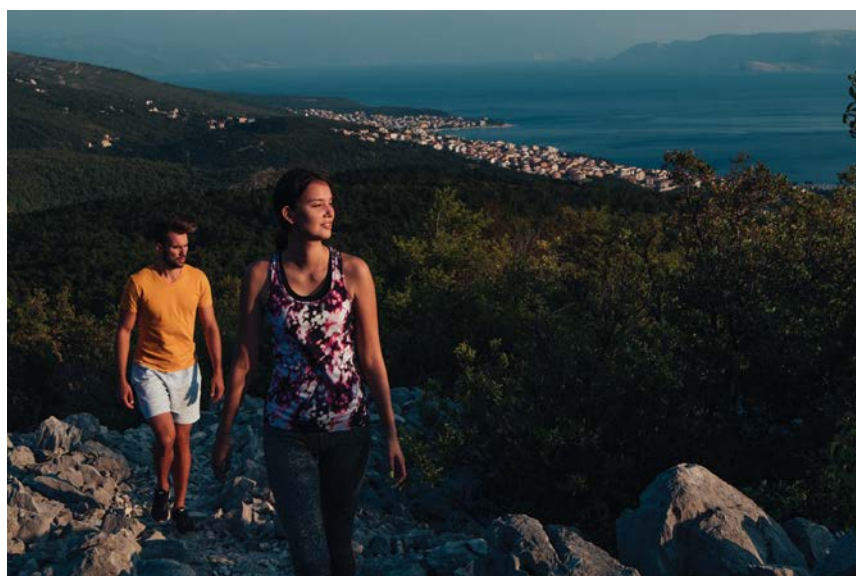

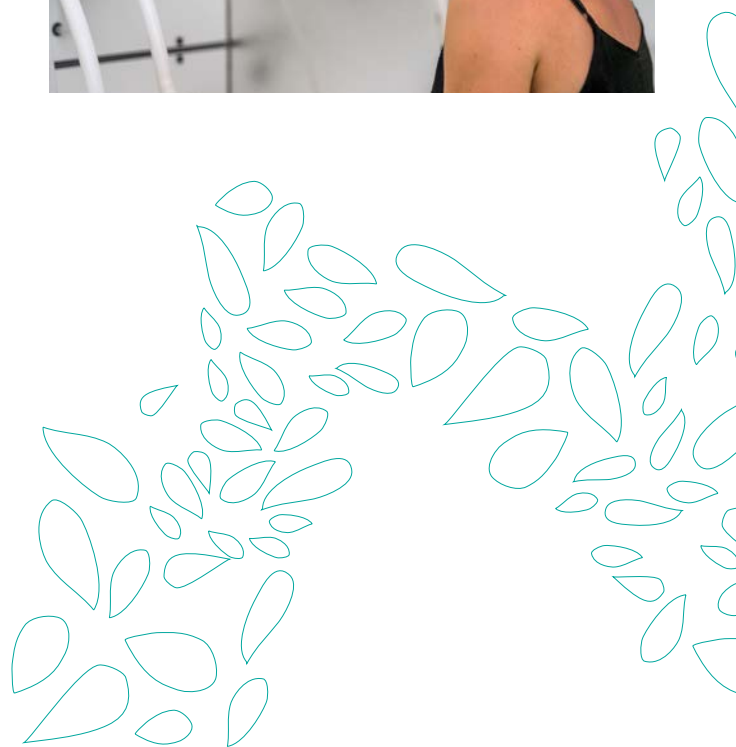

Recreation and Nature

Crikvenica offers numerous challenges for both sport lovers and leisure and health enthusiasts. Whether you are running or cycling, you will feel your batteries being recharged along the fantastic hiking and cycling trails or along the paths by the sea or through the local greenery. Try your luck at fishing, parasailing, water-skiing, handball, tennis, sailing or diving. The sight of the mountain peaks will give you a sense of freedom, while the spectacular sunset will provide the perfect ending of the day.

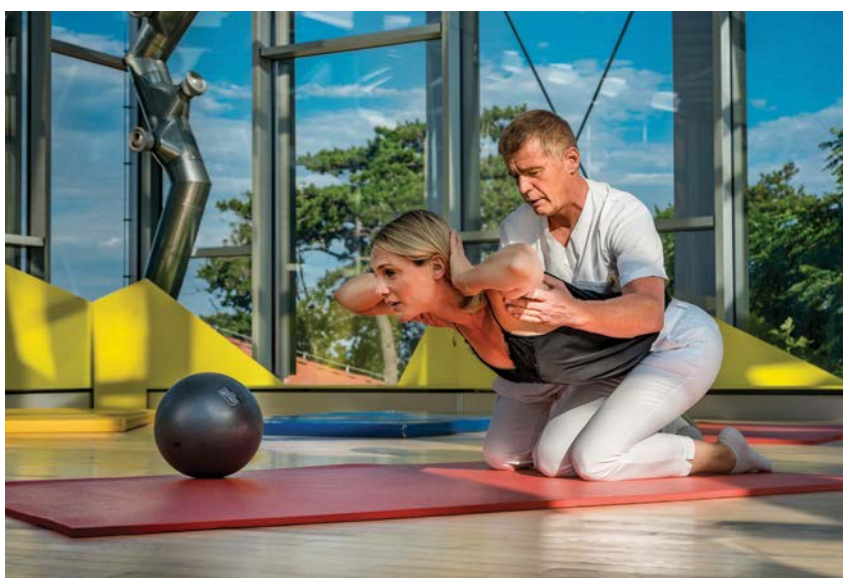

The climate here is characterised by warm, dry summers and mild winters with beneficial local breezes. The beauty and the diversity of its natural environment, stretching from the sea over the green landscapes of neighbouring Vinodol valley up to the continental forest with its preserved flora and fauna make Crikvenica a very special and attractive destination.

Health Tourism

Crikvenica is the epitome of health, a place where the fresh sea air gently intertwines with the mountain breeze, where the sun's warmth softly releases the scent of the soil and herbs of the Mediterranean, and where every pebble can be seen in the crystal clear blue sea. It was in the 19th century that experts, aristocrats and visionaries realised the natural benefits of the area, which have been preserved right up to the present. Crikvenica was once home to a small seaside resort where patients of all ages used to recover their health. It has now developed into a destination with several spa centres, boasting high quality health and wellness facilities and outdoor recreational areas.

Events

The scent of the sea and seafood specialities, the sound of local songs, the laughter of tourists and their affable hosts, thousands of fireworks exploding in a million colours against the night sky... different events, like the Fishermen's Week,

the Swimming Marathon, CrikvArt, Crikvenica 4 Pets etc., with tradition that continues to attract new generations of visitors each year, bringing them back to Crikvenica again and again.

Gastronomie

If we jump into a culinary time machine and embark on a journey across Crikvenica, we will surely be attracted by the fantastic aromas coming from the traditional kitchen of this area. The perfect blend of the traditional and modern, the irresistible taste of the

Mediterranean, the intense colours and a palate-pleasing drop or two of wine from the Vinodol area will liberate your senses. Finally, you can't leave before you've taken a culinary walk along the Oily Fish Route and savoured its healthy oily fish specialities and pampered your taste buds with delicious Frankopan Cake, made according to a recipe dating back to 1686.
